software **quality lab**
Innovation Meets Quality

AGILE EXCELLENCE AND METHODS

Effective and dynamical in system and software development

Benefit from our knowledge and our practical experience from numerous agile projects. Increase efficiency, flexibility and quality in your development and test processes.

- ↗ You will achieve support in implementing and applying agile procedures.
- ↗ The potential for optimization in your agile processes will be identified.
- ↗ Expedient application possibilities of agile techniques and methods will be defined.
- ↗ You will be coached and supported by agile employees during the implementation phase.

*"It is common sense to take a method and try it.
If it fails, admit it frankly and try another.
But above all, try something."*
Franklin D. Roosevelt

Your Benefit

- ↗ **Qualitative, efficient and effective**
  In agile processes
- ↗ **Holistic**
  Expert knowledge in agile procedures and beyond
- ↗ **Comprehensive support**
  Consulting, training, coaching, operative support
- ↗ **Think outside the box**
  We not only practice agile methods, but also keep focused on all other topics in the development process. We combine these topics with agile methods to the most valuable process and method framework.

Services

- ↗ **Initial analysis to define your "agile maturity"**
- ↗ **Actions for process improvement**
- ↗ **Consulting and tailor-made coaching packages**
  Consulting and tailor-made coaching packages from implementation of agile development to team coaching for ensuring an efficient way of putting agile methods into practice
- ↗ **Operative support by agile testers and test automation specialists**
- ↗ **Agile trainings**
  - Agile requirements engineering
  - Testing and test automation in agile teams
  - Process models like Scrum and Kanban
